

# W L C

Wireless Lens Control by  CAMERA SUPPORT SYSTEMS

## Take Control. Unwire Your Vision.

### Effortless Precision

Take complete control of your B4 broadcast lenses with the ZAXCSS WLC. Achieve smooth, precise zoom and focus adjustments from up to 600 meters away, enabling you to capture the perfect shot every time.

### Unmatched Flexibility

The WLC's long-range wireless capabilities and compact design give you the freedom to operate in any environment. Whether you're shooting on a sprawling film set or a crowded event, the WLC adapts to your needs.

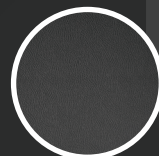

### Intuitive Control

The WLC's ergonomic design and user-friendly features put you in command. Quickly adjust focus and zoom with the intuitive controls, and customize your workflow with the focus reverse switch and quick zoom button.

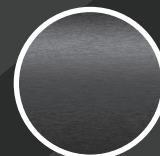

## Choose Your Grip

Wood

Rubber

Aluminium
